Agile Product Feature List - Backlog Template

## Description First By High Priority	Agile Product Feature List - Backlog Template				
Iteration 1	#	Description	Hours Est.	Ву	
110 When receiving an invoice the invoice total needs to allow negative numbers. 8 KK		High Priority			
101 Need inventory value to be reflected at last price paid. Reformat production reports to one selection screen. 8 KK When editing an item - should get a warning pop up if you click cancel. 16 KN 155 When placing new order, should 0 out items not ordered. 16 KN 105 Need ability to modify search results before printing. 104 DL 105 Show distribution accounts for production reports 107 Iteration 2 108 Need ability to capture vendor contact information for each new vendor. 109 Need ability to capture vendor contact information for each new vendor. 100 Red a report of invoices posted, subtotaled by group and period. 100 Red a report showing summary of all vendor invoices by date 101 System should assign numerical keyname for each new item 102 KN 103 Product numbers should be assigned by the User and not the system. 104 DL 105 Medium Priority 107 Starting inventory should be reflected at zero cost 108 When a particular report is finished, user should not be able to edit. 109 Need a Price and Portion Book Report 110 Need a simplified inventory setup process. 111 Need a simplified way of entering an item. 112 Need a simplified way of entering an item. 113 Need a report to show inventory items with no ending inventory. 114 Need a simplified way of entering an item. 115 Need custom report for weekly summary of course, meal, day, and week. 116 Need a believe of the sequence of items in each course. 117 Low Priority 118 Need a flag for items that have been modified 119 Need a flag for items that have been modified 120 Need a Visual flag for reports that have been updated 121 Unit Name Should be Bolded when editing overrides. 122 Need to be able to report against end of period settings. 123 Need Individual Item Costing Report. 124 Need Short list of all used items report	Iteration 1				
Reformat production reports to one selection screen. 8 KK Kincol When editing an item - should get a warning pop up if you click cancel. 16 KN Kincol	110	When receiving an invoice the invoice total needs to allow negative numbers.	8	KK	
When editing an item - should get a warning pop up if you click cancel. 16 KN	101	Need inventory value to be reflected at last price paid.	24	AG	
155 When placing new order, should 0 out items not ordered. 16 KN Need ability to modify search results before printing. 40 DL Show distribution accounts for production reports 8 DL Iteration 2 Iteration 2	103		8	KK	
Need ability to modify search results before printing. 40 DL			16	KN	
Show distribution accounts for production reports Reartion 2					
Need ability to capture vendor contact information for each new vendor.					
Need ability to capture vendor contact information for each new vendor. Reference in the control of invoices posted, subtotaled by group and period. Reference in voices posted, subtotaled by group and period. Reference invoices posted, subtotaled by group and period. Reference invoices posted, subtotaled by group and period. Reference invoices posted invoices by date Reference invoices	104		8	DL	
Create report of invoices posted, subtotaled by group and period. 8 KK					
Need a report showing summary of all vendor invoices by date System should assign numerical keyname for each new item Create Simple Report of all items delivered by vendor Product numbers should be assigned by the User and not the system. Medium Priority Starting inventory should be reflected at zero cost When a particular report is finished, user should not be able to edit. Need a Price and Portion Book Report Need a simplified way of entering an item. Need a simplified inventory setup process. Need custom report for weekly summary of course, meal, day, and week. Need report to show inventory items with no ending inventory. Implement accounting pricing rules. Create New Report of updated items list. Need ability to set the sequence of items in each course. Low Priority Need a visual flag for reports that have been modified Need a visual flag for reports that have been updated Unit Name Should be Bolded when editing overrides. Ability to check box next to desired item and edit only that item. When a report is deleted by corporate, localize any custom versions Need to be able to report against end of period settings. Need to change titles to make system easier for users to adopt. Need Short list of all used items report		·			
118 System should assign numerical keyname for each new item 119 Create Simple Report of all items delivered by vendor 110 Product numbers should be assigned by the User and not the system. 110 DL **Medium Priority** 122 Starting inventory should be reflected at zero cost 148 When a particular report is finished, user should not be able to edit. 150 Need a Price and Portion Book Report 112 Need a simplified way of entering an item. 113 Need a simplified inventory setup process. 126 Need custom report for weekly summary of course, meal, day, and week. 199 Need report to show inventory items with no ending inventory. 120 Implement accounting pricing rules. 120 Create New Report of updated items list. 121 Need a bility to set the sequence of items in each course. **Low Priority** 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 149 Need Individual Item Costing Report. 150 Need Individual Item Costing Report.					
119 Create Simple Report of all items delivered by vendor 120 Product numbers should be assigned by the User and not the system. 131 Product numbers should be reflected at zero cost 142 Starting inventory should be reflected at zero cost 143 When a particular report is finished, user should not be able to edit. 144 When a particular report is finished, user should not be able to edit. 155 Need a Price and Portion Book Report 156 Need a simplified way of entering an item. 157 Need a simplified inventory setup process. 158 Need custom report for weekly summary of course, meal, day, and week. 159 Need report to show inventory items with no ending inventory. 150 Implement accounting pricing rules. 151 Create New Report of updated items list. 152 Need a flag for items that have been modified 153 Need a visual flag for reports that have been updated 154 Need a visual flag for reports that have been updated 155 When a report is deleted by corporate, localize any custom versions 156 Need to be able to report against end of period settings. 157 Need to change titles to make system easier for users to adopt. 158 Need Individual Item Costing Report. 159 Need Short list of all used items report			_		
Product numbers should be assigned by the User and not the system.		· · · · · · · · · · · · · · · · · · ·			
Starting inventory should be reflected at zero cost					
122 Starting inventory should be reflected at zero cost 148 When a particular report is finished, user should not be able to edit. 150 Need a Price and Portion Book Report 112 Need a simplified way of entering an item. 113 Need a simplified inventory setup process. 126 Need custom report for weekly summary of course, meal, day, and week. 199 Need report to show inventory items with no ending inventory. 201 Implement accounting pricing rules. 120 Create New Report of updated items list. 121 Need a bility to set the sequence of items in each course. **Low Priority** 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	121	Product numbers should be assigned by the User and not the system.	16	DL	
148 When a particular report is finished, user should not be able to edit. 150 Need a Price and Portion Book Report 112 Need a simplified way of entering an item. 113 Need a simplified inventory setup process. 126 Need custom report for weekly summary of course, meal, day, and week. 199 Need report to show inventory items with no ending inventory. 201 Implement accounting pricing rules. 120 Create New Report of updated items list. 121 Need a bility to set the sequence of items in each course. 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	Medium Priority				
150 Need a Price and Portion Book Report 112 Need a simplified way of entering an item. 113 Need a simplified inventory setup process. 126 Need custom report for weekly summary of course, meal, day, and week. 199 Need report to show inventory items with no ending inventory. 201 Implement accounting pricing rules. 120 Create New Report of updated items list. 121 Need ability to set the sequence of items in each course. 120 Low Priority 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	122	Starting inventory should be reflected at zero cost			
112 Need a simplified way of entering an item. 113 Need a simplified inventory setup process. 126 Need custom report for weekly summary of course, meal, day, and week. 199 Need report to show inventory items with no ending inventory. 201 Implement accounting pricing rules. 120 Create New Report of updated items list. 123 Need ability to set the sequence of items in each course. 124 Low Priority 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	148	When a particular report is finished, user should not be able to edit.			
113 Need a simplified inventory setup process. 126 Need custom report for weekly summary of course, meal, day, and week. 199 Need report to show inventory items with no ending inventory. 201 Implement accounting pricing rules. 120 Create New Report of updated items list. 123 Need ability to set the sequence of items in each course. 134 Need a flag for items that have been modified 135 Need a visual flag for reports that have been updated 136 Unit Name Should be Bolded when editing overrides. 137 Need to be able to report against end of period settings. 138 Need to change titles to make system easier for users to adopt. 159 Need Individual Item Costing Report. 150 Need Short list of all used items report	150	Need a Price and Portion Book Report			
126 Need custom report for weekly summary of course, meal, day, and week. 199 Need report to show inventory items with no ending inventory. 201 Implement accounting pricing rules. 120 Create New Report of updated items list. 123 Need ability to set the sequence of items in each course. Low Priority 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	112	Need a simplified way of entering an item.			
199 Need report to show inventory items with no ending inventory. 201 Implement accounting pricing rules. 120 Create New Report of updated items list. 123 Need ability to set the sequence of items in each course. **Low Priority** 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	113	Need a simplified inventory setup process.			
201 Implement accounting pricing rules. 120 Create New Report of updated items list. 123 Need ability to set the sequence of items in each course. **Low Priority** 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	126	Need custom report for weekly summary of course, meal, day, and week.			
120 Create New Report of updated items list. 123 Need ability to set the sequence of items in each course. **Low Priority** 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	199				
123 Need ability to set the sequence of items in each course. Low Priority 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	201	Implement accounting pricing rules.			
Low Priority 131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	120	Create New Report of updated items list.			
131 Need a flag for items that have been modified 132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	123	Need ability to set the sequence of items in each course.			
132 Need a visual flag for reports that have been updated 133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	Low Priority				
133 Unit Name Should be Bolded when editing overrides. 134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	131	Need a flag for items that have been modified			
134 Ability to check box next to desired item and edit only that item. 135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	132				
135 When a report is deleted by corporate, localize any custom versions 137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	133	Unit Name Should be Bolded when editing overrides.			
137 Need to be able to report against end of period settings. 152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	134	Ability to check box next to desired item and edit only that item.			
152 Need to change titles to make system easier for users to adopt. 153 Need Individual Item Costing Report. 154 Need Short list of all used items report	135	When a report is deleted by corporate, localize any custom versions			
153 Need Individual Item Costing Report. 154 Need Short list of all used items report	137	Need to be able to report against end of period settings.		· · · · · · · · · · · · · · · · · · ·	
154 Need Short list of all used items report	152	Need to change titles to make system easier for users to adopt.			
·	153	Need Individual Item Costing Report.			
156 Need ability to create an Order Template based on current Inventory.	154	Need Short list of all used items report			
	156	Need ability to create an Order Template based on current Inventory.
