DEVELOPMENT UNITS

14

PRE-REQUISITES

A minimum of four years' project management experience is required

AUDIENCE

This course is designed for experienced project managers.

DESCRIPTION

This course is designed for experienced project managers who are responsible for recovering out of control projects. Learn techniques to recover existing projects and to understand the early warning signs that a project is heading in the wrong direction. Mindavation courses are highly interactive with challenging case studies and lectures filled with real life work scenarios. Attendees will team together to apply techniques learned from the lectures. All Mindavation instructors are PMI® certified and each have over 10 years of project management experience in multiple industries

KNOWLEDGE AREAS COVERED

PMBOK KNOWLEDGE AREAS

Project Communications Management | Project Human Resources Management | Project Scope Management | Project Quality Management | Project Integration Management

KEY LEARNING OBJECTIVES
